PORTLAND MARKETS

Complete Market Reports Corrected Each Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND, May 8.—Portland has probably a wider range of fluctuations in prices than any city in the land. This is accounted for by reason of its location with reference to other important markets. The outlet for surplus stocks in the south is at present cut off at San Francisco, except for staples required in relief supplies and in restocking houses that were burned out and that are starting up again. For perishable goods, however, Portland must use up supplies practically herself and in suburban towns, so that when a glut occurs in certain lines the price is cut deeper than the real market justifies. In order to clean up stocks. Very likely the very next day quotations assume normal figures, but the record has been made of the fluctuation.

This applies at the present time to the fresh meat market.

Thirteen states and territories of the Middle West are traversed by Rock Island lines. There are more cities of 25,000 population and upwards on the Rock Island System than on any other Western road! From Minnesota to Texas, from the Rocky Mountains to the Great Lakes, it is Rock Island country. The Rock Island System occupies a strategic position in the western railway world.
